Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1908 Excerpt: .all of these symptoms will have increased in severity. The distention of the coil is greater, the abdomen is more tympanitic, sensitiveness at the seat of obstruction is now manifest, and the increased resistance of the occluded coil may be felt. If the coil be small, the increased resistance of the intestine on the proximal side of the occlusion may be felt and a circumscribed dullness may be outlined. This varies with position, depending upon the portion of the intestine involved in the strangulation, as shown in the von ZoegeManteuffel plates. Peristalsis is very greatly increased and is most pronounced in the neighborhood of the obstruction. The increase in peristalsis continues until peritonitis sets in, when it entirely disappears. If the strangulation be sufficient to produce gangrene, the depression will be more marked, but the local manifestations 1 Von Zoege-Manteuffel: Zur Diagnose und Therapie des Ileus,...
